**C. Proposed scheme for reduction of capital**

The Independent Director's Committee reviewed and considered the draft Scheme of reduction of capital of the Company on the following grounds:

**I. Need and Rationale of the proposed Scheme:**

- a) The proposed reduction of the capital of Company is being undertaken in accordance with the provisions of Section 66 read with Section 52 of the Act and the relevant rules read with the Listing Regulations and the SEBI Circular.
- b) The Company's financial statement currently reflects Accumulated Losses (debit balance of Profit & Loss Account) to the tune of Rs.526,92,60,751/- (Rupees Five Hundred and Twenty Six Crores Ninety Two Lakhs Sixty Thousand Seven Hundred and Fifty One Only) based on unaudited standalone financial statements for the quarter ended September 30, 2023. The present issued, subscribed and paid-up share capital of the Company is Rs.59,76,15,850/- (Rupees Fifty Nine Crore Seventy Six Lakhs Fifteen Thousand Eight Hundred and Fifty only) comprising of 4,70,11,585 equity shares of Rs. 10/- each and 12,75,000 Non convertible, cumulative & redeemable preference shares of Rs. 100/- each. Accumulated Losses have substantially wiped off the value represented by the Share Capital. This has given to the need for readjustment of capital reserve, capital redemption reserve and securities premium in its books of accounts.

- c) The proposed reduction of Capital Reserve Account, Capital Redemption Reserve Account and Securities Premium Account against the Accumulated Losses shall be reflected in the books of accounts of the Company, on the Effective Date, in the following manner:

*(Amount in Rs.)*

<b>Particulars</b>	<b>Pre reduction (As on September 30, 2023)</b>	<b>Proposed reduction</b>	<b>Post reduction</b>
Capital Reserve Account	455,31,65,614	(455,31,65,614)	-
Capital Redemption Reserve Account	17,61,55,000	(17,61,55,000)	-
Securities Premium Account	77,80,20,025	(53,99,40,137)	23,80,79,888
Retained Earnings i.e. Accumulated Losses	(5,26,92,60,751)	5,26,92,60,751	-

The Independent Audit Committee of the Company noted the rationale and the benefits of the Scheme which, inter alia, are as follows:

- i. The financial statements of the Company would reflect its true and fair position which would help the Company to position itself better in the market and undertake business activities efficiently. This would be value accretive to the Shareholders as well, as their holdings would yield better results.
- ii. The proposed restructuring under the Scheme, if approved, would enable the Company to explore opportunities for the benefit of its Shareholders, in the form of dividend payments, in terms of the applicable laws.
- iii. The Scheme, if approved, may enable the Company to explore opportunities that it was unable to take advantage of because of it experiencing Accumulated Losses.
- iv. The reduction of Capital Reserve Account, Capital Redemption Reserve Account and Securities Premium Account in the manner proposed would enable the Company to have a rational structure which is commensurate with its business and assets.
- v. The adjustment/set off of the balance in Capital Reserve Account, Capital Redemption Reserve and Securities Premium Account would not have any impact on the shareholding pattern and the capital structure of the Company.

- vi. The Scheme of reduction, after full implementation, will result in making the Company's balance sheet leaner and downsized.
- vii. The proposed Scheme would enable the Company to utilize the amount lying unutilized in the Capital Reserve Account, Capital Redemption Reserve Account and Securities Premium Account of the Company in an effective manner for the benefit of the Company.
- viii. The reduction of the capital of the Company by way of writing off the Accumulated Losses against the amount lying in the Capital Reserve Account, Capital Redemption Reserve Account and Security Premium Account of the Company does not involve reduction in the issued, subscribed, paid-up share capital of the Company or any payment of the paid up share capital to the shareholders of the Company and nor does it result in extinguishing of any liability or diminution of any liability.
- ix. The Scheme, if approved, would provide greater flexibility to the Company in raising funds either from the capital market or from any bank/ financial institutions in the form of equity or debt, depending on the business needs of the Company.
- x. The reduction of Capital Reserve Account, Capital Redemption Reserve Account and Securities Premium Account does not result in any prejudice to the Shareholders, the creditors or any other stakeholders of the Company nor for that matter adversely affect the ordinary operations of the Company or its ability to honor its commitments or pay its debts in the ordinary course of its business.
- xi. Accordingly, the proposed Scheme of reduction of share capital would be for the overall benefit of the Company, its creditors, its Shareholders and all other stakeholders.

## **II. Impact of the Scheme on the shareholders:**

- a) The Scheme does not entail any discharge of consideration by the Company in form of cash, shares or otherwise. Hence, the interest of the shareholders is not adversely affected. The Company's equity capital structure and the shareholding pattern subsequent to the Scheme will remain unchanged;
- b) The Scheme does not involve either a diminution of liability in respect of unpaid share capital or payment of paid-up share capital;
- c) There is no adverse impact on the shareholders and this reduction shall further allow the creation of distributable reserves in future for dividend which may get held up due to accumulated losses; and

- d) The proposed Scheme is expected to be beneficial to the Company, its shareholders and all other stakeholders.

**III. Cost benefit analysis of the Scheme:**

- a) The proposed Scheme will help the Company to reflect the true shareholder value which would place the Company in a position to pay dividend or raise capital in future at lower cost;
- b) The proposed Scheme does not involve any payment/ pay-out to any shareholder; and
- c) The proposed Scheme would lead to incurring of some costs towards its implementation, however, the benefits of the Scheme over a longer period would far outweigh such costs for the stakeholders of the Company.

**D. Recommendation of the Independent Director's Committee**

Taking into consideration the proposed Scheme, Fairness Opinion, valuation report certificate, draft accounting treatment certificate and draft undertaking from the statutory auditor, and inter-alia having noted the need, rationale, synergies, impact of the Scheme and cost benefits analysis, the Independent Director Committee confirms that the proposed Scheme is not detrimental to the shareholders of the Company and is in the best interest of the Company and its shareholders, creditors, and all other stakeholders. Thus, the Independent Director Committee hereby recommends the proposed Scheme to the Board of Directors of the Company for its consideration and approval.
